Notice on Change in Disclosure Policy of Business Forecast

We, SUMIDA CORPORATION, hereby inform you that our disclosure policy of the business forecast has been changed. Details are as follows:

1. New Disclosure Policy

In the new policy, in addition to the business forecast of the next quarter, the business forecast of the whole fiscal year will be also disclosed during the announcement of the quarter settlement of accounts. Furthermore, the EBITDA which our company uses as a key indicator of business performance will be also shown as reference information. The new disclosure policy is effective and applied to the announcement of the 1st Quarter settlement of accounts on today.

2. Reason of Change

In the electronic components industry, the changes of environment are extreme at full-year, it is difficult for the companies in the industry to expect the business for the whole fiscal year, for this, we used to only indicate the business forecast of the next quarter so as to secure the accuracy of the business figures. However, it is thought that it would be more beneficial for the judgment of a long-term investment to indicate the forecast of the whole fiscal year, so we decided to change the disclosure policy of the business forecast this time though the change of environment still remains extreme.

3. Past Disclosure Policy

We used to indicate only the business forecast of the next quarter during the disclosure of quarter settlement of accounts.
