Representative Executive Officer(CEO)
(Code 6817, 1st Section, Tokyo Stock
Exchange)
For Inquires Takao Ozaku,
Senior Quality Officer
(TEL 03-3667-3381)

Notice of Acquisition of ISO 14001 Certification

All of us at Sumida Group have been positively dealing with environment management activities in order to fulfill social responsibilities as global citizens putting the group altogether.

In May 1998, we had issued Environment Philosophy, pronouncing the doctrine necessary for Sumida to grapple with environment protection activities as a whole group. Basing on this doctrine, we have organized Environment Management Preparation Committees at our respective factories deciding the environment policy and promoting the construction of environment management system. As a result, following the acquisition of ISO14001 certification at first by Panyu Factory on July 23, 1999 and by Taiping Factory on August 9, 1999, other two factories in Taiwan and Mexico also acquired ISO14001 certification respectively.

We are glad to announce that Sumida has also acquired the international standard of environment management system, ISO 14001 certification, locally in Japan.

Sumida Group has recognized the importance of environmental protection and we will improve the environment management system continuously.
